

Heart Suncatcher Bookmark

Designed by Rebecca Holmes for International Beading Week 2023.

This charted design can be stitched using either Peyote stitch, Brick stitch or a combination of both.

Originally made as a bookmark, it can quite easily become a bracelet by adjusting the number of hearts and adding a slider clasp.

Instructions for Peyote and Brick stitch can be found on the Beadworkers Guild Website at: <https://beadworkersguild.com/basic-stitch-instructions/> where you can also find free step by step videos for both techniques.
