This pendant is done in peyote. The geometric triangle consists of 3 sides, each side except the last starting with a herringbone corner followed by a peyote row. Each subsequent row will have 1 more peyote bead along the side than the previous row. The beads for each row are designated in a word chart with the corner beads appearing in parenthesis followed by the peyote beads separated by commas. For example: (2A), 1A, 3B, 4C.

Begin by threading a beading needle with a comfortable working length of thread. Use a stop bead or hold onto the tail for the first round.

**Row 1**—Pick up the three beads in the order designated in the word chart. Slide down the thread leaving enough tail to weave in later. Go through all 3 beads from the tail side. Go through the first bead again.

**Row 2**—Pick up the 1<sup>st</sup> two corner beads. Go through the next bead. Repeat for the next 2 corners. Step up by going through the 1<sup>st</sup> corner bead added.

**Row 3**—Pick up the 1<sup>st</sup> two corner beads. Go through the next corner bead from the previous row. Peyote once using the bead designated by the word chart going through the 1<sup>st</sup> of the next 2 corner beads. Repeat for each side of the triangle. Step up by going through the 1<sup>st</sup> corner bead added.

Continue in this fashion through row 26. For row 27, pick up a single bead for each corner. Secure and end the thread.

**Bail:** Thread the needle with a wingspan of thread. Place a stop bead a little past the center of the thread or hold onto the tail for the 1<sup>st</sup> round.

**Round 1**—Pick up 24 C beads. Slide down to the center of the thread. Go through the 1<sup>st</sup> 6 beads from the tail side (diagram to the right).

**Round 2**—Peyote with C 12 times. Step up 1<sup>st</sup> C (diagram to the left).

**Round 3**—Peyote one space with (2C). Peyote the next 3 spaces with 1 C. Repeat this sequence 2 times. Step up 1<sup>st</sup> C added (diagram to the right).

**Round 4**—The bail now follows the triangle pattern. Stitch (2B) at the corner and 1B in each of the next 4 spaces. Repeat for the other 2 sides. Step up 1<sup>st</sup> B added (black line, diagram to the right).

**Round 5**—Stitch (2B) at the corner and 1B in each of the next 5 spaces. Repeat for the next 2 sides. Step up 1<sup>st</sup> B added (red line, diagram to the right).

**Round 6**—Stitch (2C) at the corner and 1C in each of the next 6 spaces. Repeat for the next 2 sides. Step up 1<sup>st</sup> C added (green line, diagram to the right).

Remove any stop bead and put the needle on the tail side.

**Round 7**—Repeat round 3.

**Round 8**—Repeat round 4.

**Round 9**—Repeat round 5.

**Round 10**—Repeat round 6.

**Round 11**—Stitch 1 C at the corner. Peyote 7 spaces with a single C. Repeat one time. Stitch 1 C at the last corner.

Line the center of the bail to the center of the pendant. Go through the 10<sup>th</sup> C from the corner moving toward the center of the pendant. Go through the next C on the bail. Continue to zip the last row on the bail to the top row of the pendant until the thread is exiting the opposite corner on the bail.

Return to the other needle.

Zip the beads from round 6 to the beads added in round 10. After going through the last corner bead, continue to zip the round 6 beads to the same beads on the triangle pendant. Secure and end the thread.
