

## IBW Zebra Pen Wrap

by Rebecca Holmes

Inspired by the 'Hexagon Pen Wrap' designed by Karen Gibson Brown, in The Beadworkers Guild January Journal, issue, No. 104, this design is intended to represent zebra skin to mark the IBW 2025 Natural World theme.

The chart is worked in odd count Peyote stitch, in size 11 Miyuki Delica beads.

**Tip:** Try to use a light tension when working this wrap to ensure it fits well to the pen - it is a very snug fit!

Basic stitch instructions can be found on The Beadworkers Guild website at: <https://beadworkersguild.com/basic-stitch-instructions/>
