

Peace Dove Star

Designed by Carol Webb, Beaded Perfectly

www.beadedperfectly.com

You may bead the design, and sell the finished item. You are not allowed to copy, sell, share, give away or trade Beaded Perfectly digital designs or files. Any posts on social media, must give credit for the design to Carol Webb, Beaded Perfectly.

Front and back are the same

This pattern assumes you know how to make warped squares and how to zip the pieces together. I only give a couple of tips in this pattern.

Bead List

Bead Symbol Count Description

	A	734	Blue, Opaque (DB1587)
	B	552	White, Opaque (DB201)
	C	357	Silver, Transparent (DB41)
	D	236	Gold, Transparent (DB42)
	E	34	Green, Opaque (DB163)
	F	28	Green, Opaque (DB797)
	G	14	Brown, Opaque (DB735)

1955 beads.

Project dimensions: 7.30 x 7.30 cm 2.87 x 2.87 inches.

A 14 row peyote 3d star

This pattern is designed to be made with Miyuki Delica 11/0 Please feel free to swap colours to use what you have.

When selecting colours to purchase for your project please use the "DB" code number. Any colour description is set by the supplier, therefore the colour description used by different suppliers may vary, Miyuki only use the code number.

You may find the Miyuki site helpful <https://www.miyuki-beads.co.jp/directory/>

Tip: When making my stars the warped squares will begin to fold about row 4 or 5. At this point make the fold so that the step up point of the square is folding down (see photo)

Remember to step up at the end of each round. Figures in brackets () indicate two beads placed at the points of the square.

(1B)

When you have made all five warped squares.

Leave the working threads. Make sure they are all folding the same way with the thread coming out of the square as shown earlier. Make sure you leave enough long tails to use to zip up the star.

Zip the warped squares together. Place the edge with the zip row against the edge without. Make sure that the design comes together correctly

Zip up from the centre, where your working thread is coming out, up to the point, and down the other side.

Repeat this until they are all nearly stitched together. Before closing up you will probably want to stuff the star with your chosen stuffing (I use chopped up plastic bags or bubble wrap).

To finish off tighten the middle by threading the needle round the 5 beads at the points in the centre of the star, pull them together to tighten and thread through these beads a few more times. Then push the needle through the centre of the star so that it comes out on the opposite side, in the centre, repeat the steps to tighten the centre.
